6. On 13 November, the Nachrichten Schule was occupied by about 800 troops wearing red-bordered black epaulets. About 30 T-34 and/or T-34/85 tanks and about 20 x 37-mm and 76-mm AA guns were observed in the quartering area. At 8:25 a.m. on 7 November, T-34 tanks [redacted] left the installation toward Bohra. On 9 November, about 80 recruits received basic training. 1
7. On 13 November, Altes Lager was occupied by about 120 troops wearing red-bordered black epaulets and a guard detail of 21 troops wearing red-bordered black epaulets and coming from Neues Lager. [redacted]
8. Between 2 and 13 November, T-34 or T-34/85 tanks almost daily engaged in driving practice in the Aue area, while 120 to 200 troops wearing red-bordered black epaulets received field training. On 5 days, an undetermined number of troops engaged in firing practice.
1. [redacted] Comment. The 44th Gds Tank Regt is again confirmed in the Nachrichten Schule [redacted] The AA guns reported [redacted] presumably belong to the 4th Gds AAA Div stationed in Neues Lager. It appears doubtful whether an AAA unit is permanently stationed in the Nachrichten Schule, as the installation is believed to be occupied almost to capacity by the tank regiment, the 270th Gds Mort Regt and the unidentified tank training battalion of the 11th Gds Tank Div.
2. [redacted] Comment. Fuel and ammunition are stored in Altes Lager as previously.
3. [redacted] Comment. In addition to the 4th Gds AAA Div, the unidentified artillery brigade of the 1st Gds Mecz Div is carried in Neues Lager. However, no recent confirmation of these units has been received.
4. [redacted] Comment. The three trains from Frankfurt/Oder fairly definitely carried recruits from the USSR to the area of the First Gds Mecz Army. However, the shipments cannot yet be confirmed by reports on transportation.
